Resolution LLC Fighting Viruses with Ozone-based Facility Saturation Under Expanded Environmental Health & Safety and Industrial Hygiene Services

Huntsville, AL, May 1, 2020 – Ozone gas, in proper concentration, has been proven to kill the SARS coronavirus, and the structure of the new 2019-nCoV or COVID-19 is almost identical to that of the SARS coronavirus. [The National Ozone Association expects studies will show that Ozone will have an antipathogenic effect on 2019-nCoV, as well.](#)

[Resolution LLC](#), a Huntsville-based small business, is expanding its Environmental Health & Safety and Industrial Hygiene services to include *Restore*, an ozone saturation service for commercial and residential buildings.

It is important to note that commercial-grade ozone generators should only be used by trained personnel, as the high concentration of ozone needed to kill viruses is dangerous to humans and animals while it remains at high levels in the air. Trained Resolution staff will work with customers to schedule an evacuation period for their buildings. At the scheduled time, once the facility is cleared of all personnel, our experts will begin the Restore process and fill the volume of the room with ozone (including HVAC ductwork). This process allows the ozone molecules to interact with airborne contaminants in your home and/or workspace, disabling or rendering inoperable viruses, bacteria, mold, odors, and allergens. Once the desired saturation level is achieved, Resolution staff will monitor the air volume, and confirm when ozone levels are safe for occupancy.

“*Restore* is designed to establish a clean baseline for your home or business” said Adam Butler, Director of Environmental Health and Safety (EHS) at Resolution LLC.

If you are interested in the *Restore* service, please contact Adam Butler at 256-713-8993 or restore@resolutionhsv.com, with a request for service. Adam will discuss the process with you and coordinate services.

“Everyone at Resolution is excited to provide this new service in our community. We believe this can help, and we are all glad to help,” said Jon Shultz, President and CEO of Resolution LLC.

“We live, work, and play here in the community, and we are ready to use the tools available to us,” said Adam.

About [Resolution LLC](#)

Resolution LLC (resolutionhsv.com) is a Service Disabled Veteran Owned Small Business, founded and located in Huntsville, Alabama, by Jon Shultz and Jeff Lower. The company’s business offerings include Environmental Health

INTEGRITY | SERVICE | EXCELLENCE

& Safety (EHS), Industrial Hygiene (IH), Geospatial Services and Geographic Information Services (GIS), and other Technical Services. Their customer base is a mix of government and commercial entities in Huntsville and across the Tennessee Valley, and from coast to coast.
